Summary

Full-stack developer with hands-on industry experience, specializing in both backend and frontend development. Strong foundation in modern web frameworks, blockchain architecture, and IoT systems. Published researcher passionate about building scalable, efficient applications.

Experience

Java Developer Intern

Feb 2026 – Present

Sonali Intellect Limited, Dhaka, Bangladesh

- Developing and maintaining backend services using **Java 17** and **Spring Boot**.
- Contributing to a **banking/financial application** using **Spring Boot** and **Angular (TypeScript)** for full-stack development.
- Designing and implementing secure **RESTful APIs** for core features such as **account management**, **transactions**, and **authentication**.
- Integrating frontend and backend systems, ensuring efficient data flow and user experience.
- Working with **MySQL** and **MS SQL Server**, writing optimized queries for data handling.
- Developed a **Task Management System** using **JSP and Servlets**, following MVC architecture.
- Collaborating in an **Agile environment**, using **Git** for version control and team workflows.

Technical Skillset

Languages

Java, TypeScript, JavaScript, SQL, Python, Kotlin, C#

Frameworks

Spring Boot, Angular, JSP/Servlets, React.js, ASP.NET

Databases

MySQL, MS SQL Server, PostgreSQL, MongoDB, Firebase

Others

REST APIs, MVC Architecture, Agile/Scrum, Docker

Tools

Git, Postman, VS Code, IntelliJ IDEA, Eclipse IDE, Android Studio

Featured Projects

NexTrip: Hybrid Blockchain Ride-Sharing Platform

Thesis Project

- Full-stack decentralized ride-sharing system using **React.js** and hybrid blockchain architecture.
- Implemented on-chain logic with **Ethereum smart contracts**, off-chain via **Hyperledger Fabric**.

- Cross-platform mobile app (**React Native/Expo**) with wallet integration.
- **Stack:** React.js, React Native, Ethereum, Hyperledger Fabric, Node.js, Web3.js

Cloud Restaurant Management System

Full-Stack

- Restaurant management system with **ASP.NET Core**, **C#**, and **MS SQL Server**.
- Features menu management, order processing, and admin dashboard with full CRUD operations.
- **Stack:** ASP.NET, C#, MS SQL Server, Razor Pages

Banking Microservices Application

Full-Stack

- Banking app with **Angular 21** and **Spring Boot 3.2.4** microservices.
- Implements account management, deposits/withdrawals, and real-time transaction history.
- **Stack:** Java 23, Spring Boot, Angular, Bootstrap 5, H2 Database

Keystone Education Consultancy

Next.js Website

- Responsive consultancy website built with **Next.js** and **Tailwind CSS**.
- Deployed on **Vercel** with fast page loads and SEO-friendly architecture.
- **Stack:** Next.js, React, Tailwind CSS, Vercel

Publications

Privacy-Preserving Blockchain Ride-Sharing Platform

IEEE QPAIN 2025

- Proposed semi-public blockchain architecture with RAFT consensus and IPFS storage for secure ride-sharing.

Machine Learning for Monkeypox Prediction

IEEE QPAIN 2025

- Evaluated and compared CNN, SVM, and Decision Trees for disease prediction and surveillance.

Design of Blockchain Ride-Sharing with IPFS

IJAIT Journal

- Scalable privacy-preserving ride-sharing system using RAFT consensus and distributed storage.

Education

Bachelor of Science in Computer Science & Engineering

Ahsanullah University of Science and Technology (AUST)

Dec 2021 – Dec 2025

CGPA: 3.105/4.00

Certifications & Training

Web Development Bootcamp

FreeCodeCamp & Scrimba (2025)

Advanced Graphics Design

Universe Computer Training Centre (2016)

Office Productivity Suite

Universe Computer Training Centre (2014)

Beyond Code

Activities: AUST Computer Club Member, Open Source Contributor, Tech Event Volunteer

Interests: Robotics, Hackathons, Football, Problem Solving, Competitive Programming
